ABOUT THE INSTITUTION

Sri Vidya College of Engineering & Technology was established in the year 2008 with the aim of taking higher education to the nearby villages in general and rural people in particular at all levels of economic platform. The college is approved by AICTE, New Delhi and affiliated to Anna University, Chennai. With a multi-disciplinary approach, the college offers five UG programmes, three PG programmes in Engineering & Technology and one PG programme in management studies. The college offers ample facilities to enhance students' individual development, and to provide opportunities to hone their skills.

ABOUT THE SEMINAR

The Internet of Things (IoT) has received massive coverage and widespread adoption. The Artificial intelligent connectivity of physical devices known more popularly as the Internet of Things (IoT) is rapidly increasing productivity and levels of communication and enabling numerous functions across organizations worldwide. With one intelligent network infrastructure, you can improve operations. Increase safety and security.

The IoT works with Machine Learning to create entirely new services that deliver huge business outcome and enable them become a 21st century enterprise. This seminar serves as a platform for research scholars, faculty, practicing engineers, and students to interact on cutting-edge technologies in IoT & AI.

TOPICS TO BE COVERED

- Understanding machine learning approaches in IoT
- Machine with brains
- Machine learning algorithms for content recommendation
- Integration of physical and virtual artifacts and events
- Predicting machine learning behavior in IoT
- Trends and opportunities of machine learning in IoT
- Brain Wave Intelligence
- Applications of Machine Learning in IoT Domain
